

## Who we are...

Now a little bit about John, your tour guide.

A professional driver for 20 years, John has been riding

motorcycles since he was 14. With all of the time he has spent behind the wheel, John has learned the best routes to travel in and around the mountains of North Carolina.

He is a natural leader, and his friends and co-workers are always asking him to organize rides. As a result, he has taken many groups, large and small, up and down the coast, from Myrtle Beach, SC to Washington, DC to "Rolling Thunder."

John is not a "white knuckle" rider -- he rides at a relaxing pace that allows everyone to enjoy the ride, and drives defensively, courteously preparing the group in advance for potential problems along the way.

John is a member of the Christian Motorcycle

Association and has served two years as president of a local chapter here in North Carolina.

Let us take the guesswork out of your ride.

You can choose from a variety of planned routes or we will plan a custom route for you, riding at a pace that allows you to enjoy the scenery and return on time.

It is a great day today! And it's time you stopped wondering and worrying. It's time to go for a ride!

Come,  
experience the mountains,  
one ride at a time

# Legendary Motorcycle Tours

An Adventure  
At Every Turn

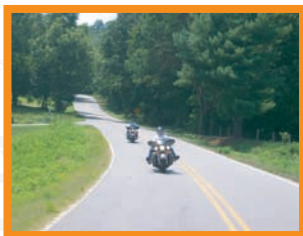

## Wow! What a day to go for a ride!

How many times have you thought that? And, then, how many times does that little voice in your head

start asking questions like, "Where should I go?" or, "How long will it take me?" or, "Will there be a nice place to stop for food or gas along the way?" Does all this uncertainty cause you to take the same rides over and over, and prevent you from trying something new and memorable? If so, then today is the day to contact Legendary Motorcycle Tours.

Let John and Diane at Legendary Motorcycle Tours do all planning for you. We are your one-stop option for affordable, guided motorcycle tours of the Appalachian Mountains and surrounding region. There's so much to see and do, from breathtaking mountaintop views, to touring historic points of interest, to winding through wooded byways - even sighting an occasional bear or eagle - you will never be bored.

## Enjoy your ride

At Legendary Motorcycle Tours, we take it slow and easy, so you can relax and enjoy all the scenery and experience the beauty that God has laid before us. We avoid the highways in favor of the scenic routes. We'll take you along the famous Blue Ridge Parkway, and explore the many other legendary roadways that make this area a favorite for motorcyclists.

## What if . . .

Okay, there's that little voice again (we hear it, too): "What if my ride breaks down, or I get a flat, or . . ." Not to worry! Legendary Motorcycle Tours provides a unique support vehicle, with an enclosed trailer, to accompany every full day trip. The guides and support vehicle stay in communication to ensure that everybody stays moving and has a great time. Regardless of the tour you choose, we believe your ride should be worry-free. We recommend that everyone's bike be roadworthy, and we will provide you with a 10 point checklist to review before you hit the road. We also recommend you are properly equipped with the appropriate riding gear: boots, chaps, jackets, and gloves, to raingear and more; in case of inclement weather.

## Ride Packages

Legendary Motorcycle Tours will create a custom tour package to suit your ability and stamina. We offer several options, from half-day to a full day of riding. You can travel on your own, to meet new people with similar interests, or bring a spouse or some friends along for fun. We also offer private group packages, in case you want to entertain corporate clients, organize an office get-away, or just spend a day hanging out with the guys or gals on the open road.

*Half Day Ride~from \$69 Full Day Ride~from \$159*

All you need is your bike, the right gear, your desire for fun and adventure, and we'll take care of the rest.
